Basketball

Basketball is a fast-paced team sport played on a rectangular court by two teams of five players each. The objective is to score points by shooting the ball through the opponent's hoop. Invented in 1891 by James Naismith as an indoor activity to keep students fit during winter, basketball has grown into one of the world's most popular and widely viewed sports. The NBA, based in the United States, is the premier professional league, featuring globally recognized stars and high-intensity games. The sport's influence extends beyond North America, with significant followings in countries like China, Canada, and the Philippines, and it is a staple in the Olympic Games.

Here we can see what makes this sport unique and how popular it is in which countries mostly. Also the Cultural Impact, Economical and Historical Context.
